17

in relationship to the tarp -- the tarpaper going on?

Obviously, they were cut first, but a day or two 2

before, a week before? Do you recall? 3

A. Actually, it would be like the day before

because this part was just being framed up as we

went. Basically, the plywood goes on and they're 6

covered up and we cut them and the paper goes across

and then we set the skylights.

9 And typically do the skylights go in before

the metal roof that goes on?

A. I'm not really familiar with the metal roof. Under normal circumstances with shingles, the

skylights would go in and then we shingle around it.

On this particular job, what was the

construction plan? What was the plan that you had in

mind, in terms of the progress? Were you planning to 16

17 have the skylights fully installed before the metal

roof went on or what? 18

19 Yes. A.

5

7

8

10

11 12

13

14

15

21

20 a. Before Robert Dade's -- strike that.

There's been testimony about a walk-through

22 that occurred shortly before Robert Dade's accident;

23 do vou recall that at all?

18

1 The walk-through would probably be with the

discussion of the skylights on the inside of the 2

3 house.

6

10

4 Q. Right. And do you recall that event?

5 A.

> Q. Do you recall when that was in relationship

7 to Robert Dade's accident?

8 That afternoon. Or even later than that.

9 It was during the same day.

Okay. The walk-through was the same day

that Mr. Robert Dade got hurt? 11

Yes. 12 A.

13 Q. The walk-through, what was the condition of

14 the exterior of the roof? Had the plywood been put

15 in?

16

18

20

23

The plywood was partially put in where the

17 area of the skylight was, yes.

> Q. And the skylight holes had been cut?

19 The skylight holes had been cut. A.

Looking at the top picture as a kind of a

21 guide, how far from the left-hand edge to the center

22 of the house had been plywooded?

Just to the left of the skylight because

the existing -- this part over the porch to the left,

19

20

2 maybe eight or nine feet didn't even exist yet.

So the roof had been installed and the

plywood up from the center of the house?

No. Just from -- actually, just maybe 5

three feet to the right of the skylight -- the right

skylight and three feet to the left of the left

8 skylight.

9 Q. So just the area surrounding the skylights

10 themselves?

> A. The skylights, exactly.

12 And in addition to the plywood being there,

13 had the tarpaper been put up there as well?

14 The tarpaper was put in after I put the

15 plywood up, or consecutive order, actually, the next

16 day.

11

17 Q. And that was before the walk-through?

18 A. That was before the walk-through, yes.

19 Now, what was the condition of the area,

20 between the right-hand edge of the new plywood and

the center area of the house where the design sort of 21

22 changes?

23 Α. Part of it was an existing house and then

maybe -- I don't recall the exact measurements --

about three or five feet or maybe even further to the

right of the skylight -- of the right skylight was --

that's where the addition was and that's where the

pivwood was.

6 Was any of it open to the air? If you

stood underneath it, could you see out into the open?

8 Α. From underneath?

9 Q. Right.

10 Yes. It was still being -- it was still

11 rough frame construction.

12 What was done to prevent rain from getting

13 in?

14 A. That was in the process of doing it right

15 then and there. We were trying to put felt paper

down and try to put ice and water down to seal it up

17 to keep the water from coming in the side of the

18 house into the main body of the house.

19 And was that done before Mr. Dade's

20 accident, do you know?

21 It was in the process of being done.

22 Was it completed before his accident?

No. It wasn't completed. A.

1 Q. What about to the left of the skylights,

- 2 what was there?
- 3 A. Plywood and still in the process of being
- 4 framed to the left side of it.
- 5 Q. Okay. Do you have any records as to when
- 6 anything was completed on this job?
  - A. I really don't think I have any records of
- 8 it. I would have to say no.
- Q. Okay.

7

- 10 A. I would be totally guessing.
- 11 Q. Now, when you did -- did you participate in
- 12 the walk-through?
- 13 A. Yes. The walk-through, I had the
- 14 discussion -- yes, I did.
- 15 Q. And who all was with you?
- 16 A. Mr. Dade -- Bob Dade, Jr.
- 17 Q. Okav.
- 18 A. He had one of his guys that works with him
- 19 was with him.
- **Q.** Do you know the name of the other guy?
- 21 A. No, I don't.
- 22 Q. Who was with him?
- 23 A. No, I don't. There are several of them,
- 1 so...
- **Q.** Mr. Dade, somebody with him, anybody else?
- 3 A. That works for him. The Joneses.
- 4 Q. And the Joneses?
- 5 A. Mm-hmm.
- 6 Q. Both of them?
- 7 A. I don't recall if both of them were there,
- 8 but Mr. Jones was.
- **9** Q. You specifically recall --
- 10 A. Yes.
- 11 Q. -- Stewart Jones?
- 12 A. Stewart was there, yes.
- 13 Q. And anybody else that you can specifically
- 14 recall?
- 15 A. Mrs. Jones, I do believe she was there, but
- 16 I know for sure because I was having a discussion
- 17 with Mr. Stewart Jones at the time while we were
- 18 discussing what was going on with the skylights
- 19 because it pertained to their house and the water
- 20 coming in.
- 21 Q. And as best you can tell me, what was the
- 22 discussion with respect to -- in the kitchen area of
- 23 the walk-through?

- 1 A. It was in discussion with the three
- 2 skylights that were in the ceiling at the time that
- 3 were covered up. Because I wanted to install the
- 4 skylights and it was in reference to the flashing
- 5 kits that you have to use with the skylights. An I I
- 6 didn't know if I had the right kit or not to put in
- 7 there. And they said no. And basically what they do
- 8 is make their own flashing that goes around it, but
- 9 they don't put that in until after it gets roofed.
- 10 So I had to get some other membrane type to replace
- 11 it with.
- 12 Q. And was there any other discussions that
- 13 you can recall?
- 14 A. No. That discussion was basically at the
- 15 time that I was in there with that was strictly for
- 6 the skylights and the flashing around it.
- 17 Q. And who was it that was describing the
- 18 manner in which Dade Roofing put flashing in for
- 19 skylights?
- 20 A. It was Bob Dade, or junior, himself, and
- 21 the guy that was with him, his helper. Because I
- 22 inquired about it and they explained to me how they
- 23 did it. Because I wanted to make sure it was

24

23

1 watertight.

22

- **Q.** Do you recall about when that was that that
- 3 discussion was had?
- 4 A. Time of day or the date?
- **5 Q.** Right. Time of day. I'm sorry.
- 6 A. It was mid-afternoon, I believe.
- 7 Q. What's mid-afternoon?
- 8 A. Lunchtime, 1, 2 o'clock, maybe. I'd be
- 9 guessing, I'd say.
- 10 MS. PELLETIER: Don't guess.
- 11 BY MR. CVEJANOVICH:
- 12 Q. Yeah. I don't want you to guess.
- 13 A. No. That's what I said, I'd be guessing
- 14 Q. And after you had that discussion, what did
- 15 you do?
- 16 A. I needed to go -- after I had the
- 17 discussion with them, they explained how they had to
- 18 do it, and then I inquired how I needed to seal the
- 19 things up to keep the water from going in until they
- 20 got their -- until they got their metal roof on
- 21 there. So I went to retrieve some rubber membranes
- 22 to go around the skylights so I could install then).
- **Q.** And where was the rubber membrane?

	Case 3:04-cv-30172-	KPN Document 2	25-4 F	Filed 02/17/2006 Page 4 of 4	
,		25		27	
1	A. The supply house.		1 where	it is.	
2	Q. So you had to go purchase it?		2 Q.	Now, is this the first roof that you have	
3	A. Yes.		3 put on	a remodeling renovation by "roof," I mean	
4	<b>Q</b> . And about when did you retur	n to the house?	4 the sub	the subroof, the plywood or have you done that as	
5	A. Late in the afternoon.		5 part of	your business in the past?	
6	<b>Q.</b> And what were what was go	oing on at that	6 A.	Yes.	
7	time?		7 Q.	You've done it in the past?
